PROFESSIONAL SUMMARY

Front-end developer specializing in React-based applications with a focus on accessibility and usability. Experienced in applying WCAG 2.1 / Section 508a standards and testing with assistive technologies to ensure inclusive design. Skilled at improving performance, simplifying user experiences, and collaborating with teams to deliver scalable solutions.

SKILLS

- Front-End: HTML5, CSS3, JavaScript
- Frameworks & Libraries: React, Next.js, Bootstrap, Tailwind CSS, Apollo GraphQL, Radix UI (ShadCN)
- Accessibility & UX: WCAG 2.1 / Section 508a Compliance, ARIA, Assistive Technologies, Figma
- Tools & Testing: Git, GitHub, Apollo Server, Debugging, Technical Documentation
- Collaboration: Problem Solving, Communication, Teamwork, Time Management

WORK HISTORY

FRONT-END WEB DEVELOPER

10/2024 to CURRENT

Advanced Automation Corporation | Remote

- Built and maintained interactive e-learning modules in React, deployed in multiple languages and used daily by learners across training programs.
- Served as lead accessibility specialist, implementing WCAG 2.1 AA / Section 508a standards to support screen readers, switch devices, and alternative input methods.
- Extended an existing virtual keyboard by integrating supporting packages for Hangul, Russian, and Arabic input, and adding accessibility features aligned to WCAG 2.1 AA / Section 508a.
- Worked closely with instructional designers and SMEs to validate accessibility, improve UX, and ensure inclusive training delivery.

FRONT-END DEVELOPER

10/2022 to 06/2024

Advanced Automation Corporation | Remote

- Delivered React-based e-learning platforms for multilingual training, improving usability and performance for 1,000+ learners.
- Optimized load times and standardized UI branding across training modules to ensure consistency.
- Partnered with instructional designers to align course content with learner needs and maintain usability standards.

FRONT-END DEVELOPER

01/2021 to 09/2022

Potawatomi Training, LLC | Remote

- Built and optimized responsive e-learning websites, improving load times and overall performance.
- Developed more than 60 landing pages with consistent branding and enhanced usability.
- Collaborated with UX/UI designers to translate complex designs into functional web pages without compromising usability or aesthetics.

EDUCATION

Bachelor of Science | Simulation & Visualization

02/2020

Full Sail University, Winter Park, FL

- Salutatorian
- Course Directors Award
